## §1439.904 Region.

In order for a region to be eligible to generate benefits under this subpart, the region must:

- (a) Be located in a primary county or counties named in a Presidential declaration or Secretarial emergency designation;
- (b) Be tribal-governed land physically located within the primary disaster designated county; and
- (c) Have suffered a livestock feed emergency as defined in §1439.903.

## § 1439.905 Responsibilities.

(a) During the operation of this program, CCC shall:

- (1) Provide weather data, crop yields and carrying capacities to tribes requesting such information;
- (2) Review contracts submitted by tribal governments requesting disaster regions; and
- (3) Act as an agent for disbursing payments to eligible livestock owners in approved disaster regions.
- (b) Tribal governments shall be responsible for:
- (1) Submitting a contract to participate in the AILFP based on the tribes' voluntary decisions that participation will benefit all livestock owners using tribal governed land;
- (2) Gathering, organizing, and reporting accurate information regarding disaster conditions and region;
- (3) Advising livestock owners in an approved region that they may be eligible for payments, in addition to the method and requirements for filing applications;
- (4) Determining that the information provided by individual livestock owners on payment applications is accurate and complete and that the owner is eligible for payments under this program:
- (5) Submitting only accurate and complete payment applications to the designated FSA office acting as an agent for disbursing payments to eligible livestock owners.
- (c) The owner or authorized representative shall:
- (1) Furnish all the information specified on the payment application, as requested by CCC;
- (2) Provide any other information that the tribal government deems necessary to determine the owner's eligibility; and
- (3) Certify that purchased feed was or will be fed to the owner's eligible live-stock.

## §1439.906 Program availability.

(a) When a tribal government determines that a livestock feed emergency existed in calendar year 2003 or 2004 on tribal governed land due to a natural disaster, the tribal government may contact the applicable State FSA office to determine if their tribal governed land is located in a primary county or
